

## Enrolling a child in a nursery or primary school in Temse

Register first, then enrol!

Was your child **born in 2019**? Or do you want to choose **another school** for your child? Then this **information** is **important** for you.

First, you must **register** your child before you can enrol it. This means that you must indicate on a website in which schools you would like to enrol your child.

### How to register?

**1. Visit and choose different schools.**

**2. From 1 March (9 am) until 26 March (3 pm) 2021, you can register your child online at [www.naarschoolintemse.be](http://www.naarschoolintemse.be)**

**Enter your personal information and indicate in which schools you would like to enrol your child.** Choose several schools. We will try to take your first choice into account as much as possible.

After your registration, you will immediately receive a **confirmation**. This is your proof that you have registered your child. Did you not receive a confirmation? Contact us!

It doesn't matter when you registered. Even if you registered on the last day of this period, you still have the same chances as someone who registered on the first day.

**3. What happens next?**

You will receive an e-mail or letter no later than 22 April 2021. This informs you in which school you may enrol your child. You must enrol your child in this school between **26 April and 21 May 2021**. Don't forget to bring this letter with you. Your right of priority expires after this date!

**Why register?** If you do **not** register your child, then you will only be able to enrol your child in a school after 1 June 2021. By then, most children in Temse will already have been registered and enrolled in a school. You may no longer be certain of a place in a nearby school or in the school of your choice. **So make sure to register your child!**

**Attention!** Children who were **born at the end of 2019** must also be **registered and enrolled**. They can, however, only start school in September 2022.

**Do you need assistance to register your child?**
